SUMMARY

With over 6 years of extensive hands-on experience in web development, I have had the opportunity to work in a variety of dynamic environments, ranging from innovative small start-ups to large-scale outsourcing companies and even a prominent international product unicorn. Throughout my career, I have successfully developed and led numerous impactful projects, including sophisticated production management systems and cutting-edge e-commerce solutions. These experiences have enabled me to cultivate a diverse and robust skill set that encompasses frontend and backend development, intuitive UI/UX design, efficient team leadership, and effective project management.

PORTFOLIO
Check out my portfolio at github.io, where I've put together some of the projects I'm most proud of. You'll find a mix of web apps, e-commerce platforms, and UI/UX designs that show off my skills in both frontend and backend development. Each project tells a story of solving real problems with clean code and thoughtful design. It's a glimpse into the kind of work I love doing—creating functional, user-friendly solutions that make a difference.
