SUMMARY

Senior Full-Stack Engineer with 8+ years of experience designing and building complex web applications, commerce platforms, and independent products. Expertise in TypeScript, JavaScript, React, Node.js, PHP, Magento 2 / Adobe Commerce, system design, subscription systems, and large-scale data migration. Takes ownership of products from architecture through delivery, translating business requirements into scalable technical solutions. Former team lead with hands-on experience mentoring engineers, conducting technical interviews, and driving architectural decisions. Uses AI-assisted engineering workflows to accelerate development, codebase exploration, debugging, and data analysis.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer | **AMP.ai**

Remote | Apr 2025 - Aug 2026

- Joined the team early and contributed to architectural decisions for a headless platform built on Magento 2 with a custom storefront.
- Architected and delivered a continuous Shopify-to-Magento migration covering 200,000+ customer records plus orders, active subscriptions, transactions, and products while preserving complex relationships and recurring-order identifiers.
- Applied AI-assisted workflows to analyze migrations, query development databases, and maintain technical documentation.
- Worked with R&D and CX teams to turn product requirements and support cases into technical solutions, balancing trade-offs and delivery risks.

Front-End Team Lead / Full-Stack Engineer | **Cloudflight**

Warsaw, Poland | Jan 2023 - Jan 2025

- Led 5+ frontend engineers across teams and seniority levels while remaining hands-on.
- Conducted one-to-ones, evaluations, 360-degree reviews, development plans, and 20+ technical interviews.
- Delivered and maintained B2C commerce platforms across 4+ European markets, collaborating directly with client R&D stakeholders on technical decisions and delivery.
- Led Core Web Vitals and frontend performance improvements across key customer journeys, balancing business needs, legacy constraints, and implementation risks.

Front-End Developer | **ODDITY**

Tel Aviv, Israel | Apr 2021 - Nov 2022

- Joined SpoiledChild at an early stage and contributed to its growth into a unicorn wellness and beauty e-commerce brand.
- Developed customer-facing experiences across product pages, checkout, homepage and campaign landing pages.
